DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Beals (#5,251,974).

Beals shows an upright multiple drawer storage cabinet comprising a rigid upright housing defining a hollow interior, a pair of generally upright side walls, a plurality of storage drawers disposed vertically, and a bottom wall arrangement defined by a closed rigid hollow box structure having top and bottom walls.

With claims 2 and 5, the right and left sidewall structures are identical and wherein the front and rear uprights are mirror images of one another.

With claim 3, each of the front and rear uprights is a generally channel-shaped member which is positioned adjacent and extends generally vertically.

With claim 4, the sidewall arrangement is roll-formed from the flat metal sheet.

With claim 6, the rear wall structure is defined by a monolithic one-piece structure having a generally planar upright rear wall provided with flanges extending along opposite vertical edges.

Allowable Subject Matter

Claims 7-14 and 16-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
